MAQ Software

Delivering AI-powered solutions to accelerate business growth and efficiency

We offer consulting services in Microsoft Fabric, Power BI, Business Intelligence, Artificial Intelligence, Analytics, Cloud Transformation, Data Management, App Development, and Content Collaboration. As a Microsoft Fabric Featured Partner and 2021 Power BI Partner of the Year, we deliver innovative solutions for Global 2000 companies in the Technology, Retail, Finance, Oil & Energy, and Healthcare industries.

Our extensive portfolio of Generative AI and data analytics services includes:

- Transitioning existing systems to the Microsoft Fabric ecosystem.
- Streamlining operations by unifying advanced data and analytics platforms.
- Empowering enterprises with AI-powered real-time intelligence (RTI) to proactively respond to changes and optimize business strategies instantly.
- Elevating customer experiences with AI-based applications.
- Implementing enterprise-grade security, in alignment with Microsoft's Secure Future Initiative (SFI), to protect data and applications.

Microsoft Fabric projects

1,200+
Certified Microsoft Fabric Analytics engineers (DP-600)

Our AI-Driven Accelerators and Services

Reduce your time-to-market with our ready-to-deploy solutions.

Designed for developers

LoadFAST
Optimize Power BI infrastructure capacity and report performance to reduce costs.

CertyFAST
Make Power BI reports reliable and adhere to quality standards.

MigrateFAST
Simplify reporting platform migration with AI-powered tools for faster transitions.

IngestFAST
Accelerate data integration to build seamless analytics platforms quickly and efficiently.
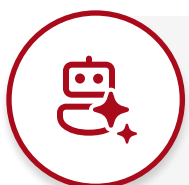

Designed for end-users

AI-DataLens
Unlock data-driven insights with AI-powered conversational analytics.

EmbedFAST
Embed Power BI reports into enterprise solutions without writing your own code.

Chatbots
Integrate secure, enterprise-grade GPT models to extract precise insights.

AI-driven recommendations
Use AI recommendation systems to provide tailored suggestions based on user behavior.

Smart support framework
Benefit from an intelligent support system to efficiently route tickets.

Deep Knowledge of Microsoft Fabric

- Used Microsoft Fabric's Real-Time Intelligence to replace batch processing, reducing data latency by 90%.

- Implemented a real-time Track-and-Trace system, optimizing 18,000 delivery routes.

- Centralized data management for a client's 160+ customers, lowering their operational costs.

- Developed copilot frameworks for Microsoft Fabric, accelerating data ingestion.

Data Migration Solutions

- Migrated 50,000+ reports to Power BI from platforms such as Tableau, MicroStrategy, Cognos, BOBJ, etc.

- Migrated platforms from Snowflake & Teradata to Microsoft Fabric with minimal disruptions.

- Streamlined migration planning for Microsoft Fabric/Power BI with feasibility assessments to reduce effort and optimize budget.

11 Microsoft Specializations

- AI and Machine Learning in Microsoft Azure

- Build and Modernize AI Apps with Microsoft Azure

- Analytics on Microsoft Azure

- Data Warehouse Migration to Microsoft Azure

- Migrate Enterprise Applications to Microsoft Azure

- Kubernetes on Microsoft Azure

- Accelerate Developer Productivity with Microsoft Azure

- Business Intelligence

- Microsoft Low Code Application Development

- Cloud Security

- Threat Protection

## Optimizing Reporting & Visualizations

- Implemented 100,000+ executive dashboards, and reports to enable faster decision-making.

- Enabled ISVs to embed Power BI into existing applications for an integrated user experience.

- Published 40+ AI-enhanced and Power BI-certified custom visuals to Microsoft AppSource.

- Over 5 million Power BI visual downloads (Second largest provider of Power BI custom visuals on Microsoft AppSource after Microsoft).

Our most popular custom visuals

Cylindrical Gauge	Advanced Linear Gauge	Organization Chart	Sunburst
Gantt Chart	Box and Whisker Chart	Calendar	Circular Gauge
